INTERDEPARTMENTAL COMMUNICATION

To: Board of Selectmen

Date: July 8, 2008

From: Engineering Department

Subject: National Grid – Gas Main Petition – Summer Street

We have reviewed the petition from National Grid to install approximately 215 feet of 2-inch gas main in Summer Street to the new homes within the Spring Farm Circle Subdivision located at 99-107 Summer Street.

1. This work will need to be coordinated with the developer (Jim Fenton) of Spring Farm Circle.
2. A Permit to Construct within a Public Way will need to be obtained from this department prior to starting work in Summer Street.
3. The street addresses labeled on the sketch from National Grid are incorrect for the 2 new homes on Summer Street. Attached is a copy of the subdivision plan for Spring Farm Circle showing the approved street numbering system for the four (4) new lots (2 existing homes & 2 new homes).

We do not foresee any problems with granting this petition. If you have any questions, or need additional information, please let us know.
